

FERTILITY SUPPLEMENTS

Effective Ways To Naturally Bo♂st FERTILITY

MEN'S & WOMEN'S HEALTH

A WHOLE NEW WAY TO LIVE YOUR LIFE

AMS® innovations for healthy living

OUR COMPANY

WHO WE ARE

America Medic & Science **AMS®** is an American Nutraceutical Company headquartered in Seattle, Washington. we manufactures and distributes natural products and dietary supplements. Led by a management team with over 3 decades of experience in Pharmaceuticals & Health products, America Medic & Science **AMS®** has become a leader in its' industry. Along with dedication to producing high quality products & providing cutting-edge innovation, has allowed America Medic & Science **AMS®** to rapidly expand its' scope of business across all major continents and partner with the top global players in the industry to deliver its' products to customers Worldwide. A member of the Natural Products Association (NPA), America Medic and Science **AMS®** is constantly seeking quality certifications, by independent organizations, to guarantee that it is delivering on its' commitment to safety and premium quality.

What we do

Since 2007 America Medic & Science **AMS®** has expanded its' range of products to include 100% Natural Male & Female Fertility supplements, Weight Control, Cardiovascular Health, Energy, Mental Focus, Essential Vitamins & Minerals. All products are GMP Approved & manufactured in our State-Of-the-Art FDA Inspected & Registered Facilities. Formulated by doctors & scientists along with inspection from manufacturing specialists and quality experts for safety, we guarantee to deliver the highest quality products in our categories.

100% NATURAL

GMP APPROVED & FDA INSPECTED

SCIENCE BACKED

PREMIUM QUALITY

SAFE & TRUSTED

Our Research and Development department is constantly working on sourcing new ingredients, innovating and formulating new products to keep adding value to the lives of customers.

Our Community

Since 2007 America Medic & Science **AMS®** has expanded its' range of products to include 100% Natural Male & Female Fertility supplements, Weight Control, Cardiovascular Health, Energy, Mental Focus, Essential Vitamins & Minerals. All products are GMP Approved & manufactured in our State-Of-the-Art FDA Inspected & Registered Facilities. Formulated by doctors & scientists along with inspection from manufacturing specialists and quality experts for safety, we guarantee to deliver the highest quality products in our categories.

SUPREME UNIVERSAL FERTILITY

WFS PLUS

Major Active Ingredients – Mechanism & Benefit

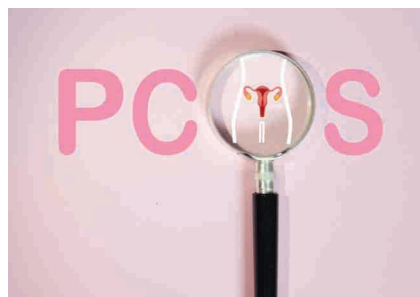

01 • D-Chiro-Inositol (DCI) + N-Acetyl-Cysteine:

02 • R-Lipoic Acid: Mitochondrial antioxidant that regenerates vitamin C/E, glutathione and CoQ10. It supports glucose transport, inflammation balance and metabolic control.

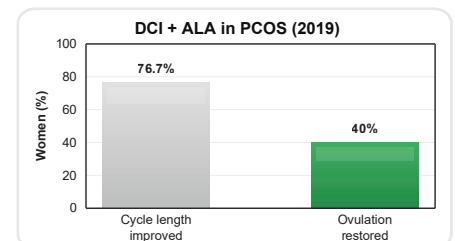

03 • DHA / Omega-3: Anti-inflammatory fatty acid supporting lipid profile and cell-membrane health. It supports ovarian environment, metabolic health and pregnancy readiness.

04 • Vitamin D, Calcium, & Magnesium: Nutrients linked to insulin sensitivity, inflammation control and endocrine balance.

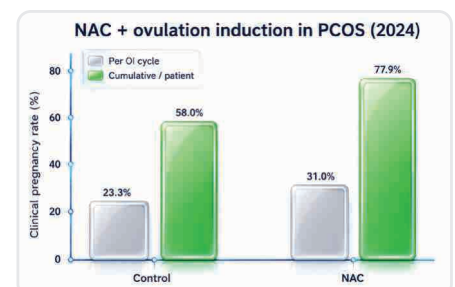

SUPPLEMENT FACTS		
Serving Size: 6 Capsules Servings Per Container: 30		
Amount Per Serving		Daily Value% *
Vitamin C (as Ascorbic Acid)	800 mg	889%
Vitamin D3 (as Cholecalciferol)	25 mcg	125%
Biotin (as d-Biotin)	100 mcg	333%
Choline Bitartrate	400 mg	73%
Calcium (as Calcium Carbonate)	250 mg	19%
Magnesium (as Magnesium Oxide)	250 mg	60%
Manganese (as Manganese Carbonate)	3 mg	130%
Proprietary Blend	1860 mg	
D-Chiro Inositol (DCI)	—	**
DHA (Docosahexaenoic Acid)	—	**
N-Acetyl-Cysteine (NAC)	—	**
R-Lipoic Acid	—	**

* Daily Value is based on a 2000 calorie diet | ** Daily Value not established

DCI + alpha-lipoic acid for 6 months improved menstrual cycle length in 76.7% and restored ovulation in 40% of women with PCOS.

Ref: Fruzzetti F et al. Gynecol Endocrinol. 2019;35 (6): 506–510.

NAC 1.8 g/day improved clinical pregnancy rates during LE/uFSH ovulation induction vs control.
Ref: Fang YQ et al. J Ovarian Res. 2024

Indications

- Women with PCOS and insulin resistance/hyperinsulinemia features.
- Oligomenorrhea/anovulation, subfertility or infertility related to PCOS.
- Hyperandrogenic PCOS symptoms such as hirsutism, acne or elevated testosterone.
- Women needing support for follicular development, ovulatory function and metabolic balance.

Product Benefits

- Improves insulin sensitivity and glucose utilization
- Reduces androgens via insulin pathway
- Supports ovulation and menstrual follicle development
- Provides antioxidant support to reduce ROS-driven inflammation and ovarian oxidative stress.

Recommended Daily Dose

- 6 capsules daily: 2 capsules three times daily after meals; drink 6–8 glasses of water/day.
- Bottle count: 90-180 capsules

Recommended Duration

- Use for at least 3 months for fertility/metabolic support; reassess based on cycle regularity, androgen symptoms and clinical guidance.

WOMEN'S
HEALTH

PREMIUM QUALITY
PHYSICIAN FORMULATED

Polysitol

Indications

- PCOS women with insulin resistance and weight-management concerns.
- Irregular menstrual cycles/anovulation, especially when linked to metabolic imbalance.
- Women with PCOS and lipid-profile or cardiometabolic risk concerns.
- Hyperandrogenic features such as acne, hirsutism, oily skin or hair thinning/alopecia.

Product Benefits

- Improves insulin sensitivity in PCOS cases.
- Supports ovulation, cycle regulation and weight-management.
- Supports metabolic and lipid profile.
- Reduces androgen-related hormonal imbalance.

Recommended Daily Dose

- 3 caplets/day in divided doses, preferably after meals.
- Bottle count: 90 caplets

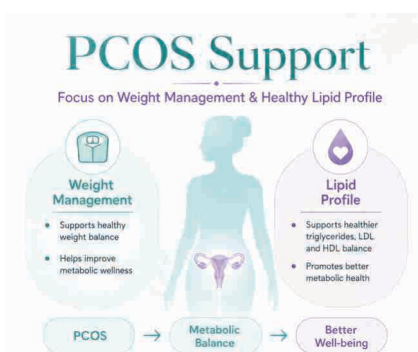

Recommended Duration

- Use for 3 months; may be extended up to 6 months according to patient response and healthcare-professional guidance.

Major Active Ingredients – Mechanism & Benefit

- **Myo-Inositol + D-Chiro-Inositol:** Improve insulin and ovarian signaling, supporting ovulation, cycle regularity, and androgen balance in PCOS.
- **Zinc:** Supports insulin metabolism and antioxidant defense, helping reduce inflammation and PCOS-related androgen symptoms.
- **Chromium Picolinate:** Enhances insulin receptor activity, improving glucose control and metabolic balance in insulin-resistant PCOS.
- **Selenium:** Helps improve lipid profile by reducing oxidative stress and supporting antioxidant enzyme activity.
- **Soy Isoflavones:** Provide phytoestrogenic support for hormonal balance, lipid profile, and androgen levels regulation.
- **B-Complex + Folic Acid:** Support energy metabolism and fertility pathways, complementing insulin balance and reproductive health in PCOS.

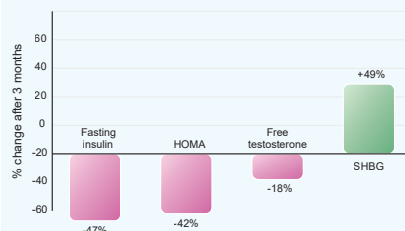

SUPPLEMENT FACTS		
Serving Size: 1 Caplet		
Servings Per Container: 90

OVA-MAX

Indications

- Women trying to conceive naturally or preparing for IVF/ICSI who need egg-quality support.
- Secondary infertility in young women, unexplained infertility or poor oocyte quality.
- Poor ovarian response/poor responders, especially when oxidative stress is suspected.
- Hormonal issues such as luteal phase defect or hyperprolactinemia-related cycle imbalance.

Product Benefits

- Protects eggs from oxidative damage.
- Supports oocyte quality and maturation.
- Balances hormones and progesterone levels.
- Improves ovarian and uterine blood flow.
- Enhances mitochondrial energy in eggs.

Recommended Daily Dose

- 4 capsules/day in divided doses, preferably after meals.
- Bottle count: 120 vegetable capsules

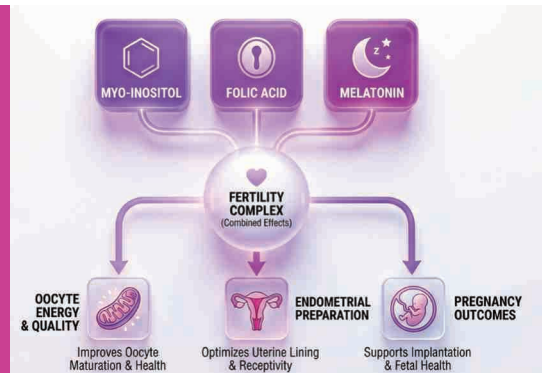

Recommended Duration

- Use for 3-4 months while trying to conceive naturally or before IVF/ICSI. Stop when pregnancy is achieved unless otherwise directed.

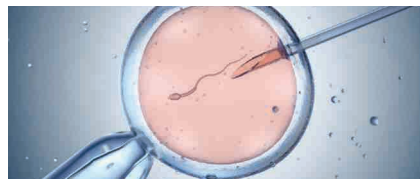

Major Active Ingredients - Mechanism & Benefit

01 Women Fertility Optimization Complex

This combination in women fertility improves oocyte quality and pregnancy outcomes

- 02 • **CoQ10 + Vitamin E + Grape Seed Extract:** Support mitochondrial energy and membrane antioxidant protection, improving oocyte ATP production, follicular microcirculation, and egg-cell quality.
- 03 • **Alpha-Lipoic Acid:** Regenerates key antioxidants (vitamin C, E, glutathione, CoQ10), strengthening overall antioxidant defense and protecting reproductive tissues from oxidative stress.
- 04 • **L-Arginine:** Boosts nitric oxide production to improve uterine and ovarian blood flow, supporting endometrial receptivity and ovarian response.
- 05 • **Chasteberry Extract:** Helps regulate prolactin and support progesterone balance, improving luteal phase function and fertility patterns.

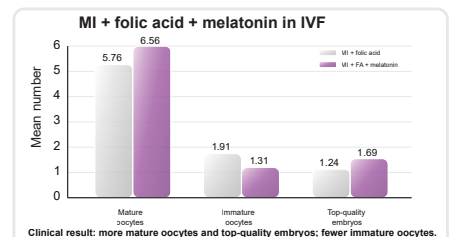

SUPPLEMENT FACTS

Serving Size: 4 Capsules
Servings Per Container: 30

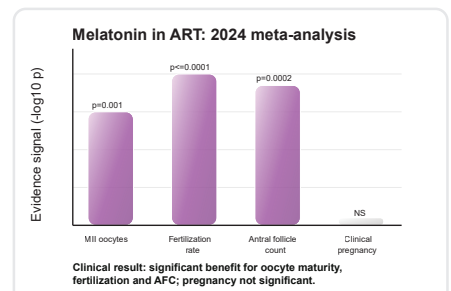

Amount Per Serving	Daily Value% *
Vitamin E (as Di-alpha-Tocopheryl Acetate)	45 mg 300%
Folate (as Folic Acid)	340 mcg DFE (200 mcg) 85%

SUPREME UNIVERSAL FERTILITY

Preconception Plus

Indications

- Women preparing for conception, IVF or IUI who need advanced preconception nutritional support.
- Advanced maternal age or concern about egg/embryo quality and oxidative stress.
- History of recurrent miscarriage, bad obstetrical history or previous pregnancy complications.
- Women needing a high-quality prenatal base with additional antioxidants before conception.

Product Benefits

- Provides prenatal vitamins and minerals to reduce nutrient gaps before pregnancy.
- Supports egg and embryo quality.
- Protects cells from oxidative damage.
- Enhances pregnancy readiness and early fetal development.

Recommended Daily Dose

- Before pregnancy: 6 capsules/day, taken as 2 capsules three times daily, preferably with food.
- During pregnancy or after IVF transfer: reduce to 3 capsules/day, according to healthcare-professional guidance.
- Bottle count: 90 and 180 capsules.

Recommended Duration

- Begin 3 months before trying to conceive or before IVF/IUI.

Major Active Ingredients – Mechanism & Benefit

- 01 • **Coenzyme Q10:** Supports energy production and acts as an antioxidant, helping egg quality and embryo development especially in advanced maternal age. It also lowers the risk of preeclampsia.
- 02 • **DHA/EPA (Omega-3):** Support ovarian function, blood flow, pregnancy readiness, and fetal brain development.
- 03 • **Grape Seed Extract:** Strong antioxidant that helps protect eggs from oxidative stress and improve circulation to ovarian tissue.
- 04 • **Folic Acid + B-Complex:** Essential for DNA formation, cell division, ovulation, implantation, and reducing neural tube defect risk.
- 05 • **Zinc + Selenium + Manganese:** Important minerals that support antioxidant defenses, hormone balance, egg quality, and fetal growth.
- 06 • **Iron + Iodine + Vitamin D + Choline:** Key prenatal nutrients that support thyroid function, oxygen delivery, immunity, bone mass and healthy fetal brain development.

SUPPLEMENT FACTS

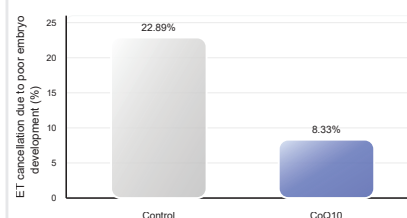

Serving Size: 6 Capsules | Servings Per Container: 30

MetrioMed

Indications

- Diagnosed or suspected endometriosis and endometriosis-associated pelvic pain.
- Pre- and post-operative support to prepare tissue environment and help reduce recurrence risk.
- Dysmenorrhea/pelvic pain syndrome or PMS not responding adequately to conventional measures.
- Perimenopausal symptoms, menstrual irregularity, dysfunctional uterine bleeding and recurrent hemorrhagic ovarian cysts.

Product Benefits

- Supports estrogen balance in endometriosis.
- Reduces endometriosis pain and cramps.
- Lowers inflammation and oxidative stress.
- Supports detox and immune function.

Recommended Daily Dose

- 2 capsules per day, preferably after meals, or as directed by a healthcare provider.
- Bottle count: 60 capsules

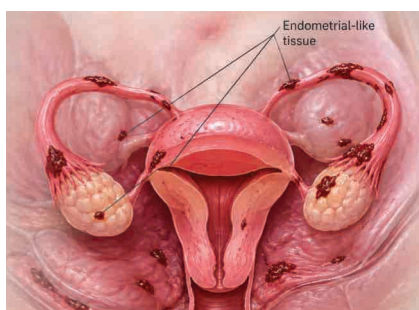

Recommended Duration

- Use for 3 months; may be extended up to 6 months. Follow-up after 3 months.

Major Active Ingredients – Mechanism & Benefit

- 01 • **Black Cohosh + Red Clover + Chasteberry:** Phytoestrogens supporting hormonal balance and estrogen/progesterone regulation, helping reduce dysmenorrhea, PMS symptoms, pelvic discomfort, and endometriosis-related menstrual pain.
- 02 • **Cat's Claw + Fenugreek:** Help reduce inflammation and immune activation, easing menstrual pain, pelvic discomfort, and systemic symptoms like fatigue, nausea, and headache.
- 03 • **Dong Quai:** Supports uterine health and menstrual regulation with anti-inflammatory and antioxidant effects, helping improve pelvic comfort in endometriosis-related conditions.
- 04 • **Wild Yam:** Provides antispasmodic support that helps relieve uterine cramps, pelvic pain, and PMS-related discomfort.
- 05 • **Dandelion:** Supports liver detox and estrogen clearance while helping reduce bloating and fluid retention.

SUPPLEMENT FACTS

WOMEN'S HEALTH

PREMIUM QUALITY
PHYSICIAN FORMULATED

FibroMed

Indications

- Women with small/medium uterine fibroids, especially multiple fibroids needing natural supportive care.
- Pre- or post-operative support and patients refusing surgery or considered inoperable.
- Fibroid-associated heavy/prolonged cycles, pelvic pressure, bloating, PMS-type discomfort or cramps.
- Women needing hormone-balance and detoxification support.

Product Benefits

- Helps counter estrogen dominance linked with fibroid growth.
- Supports liver detox pathways.
- Promotes uterine health and comfort.
- Reduces inflammation and supports overall hormonal balance.

Recommended Daily Dose

- 2 capsules per day or as directed by a healthcare provider.
- Bottle count: 60 capsules

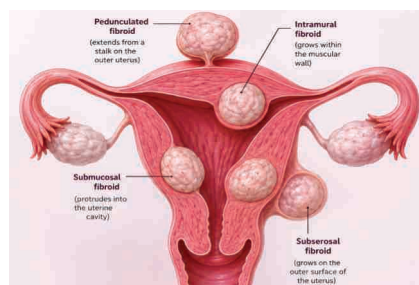

Recommended Duration

- Use consistently for 3–6 months with clinical follow-up.

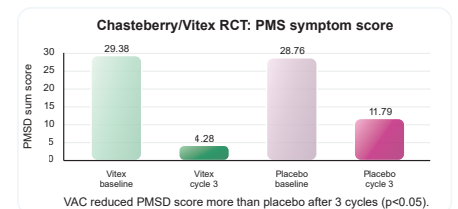

Major Active Ingredients - Mechanism & Benefit

- 01 • **Chasteberry:** Dopaminergic effects help reduce prolactin and support progesterone balance, improving PMS symptoms, cycle regularity, and hormonal balance.
- 02 • **Red Clover (Isoflavones):** Phytoestrogens help modulate estrogen signaling and support liver estrogen metabolism, aiding menstrual balance, circulation, and PMS support.
- 03 • **Motherwort:** Uterine tonic with smooth-muscle relaxing action that supports cramp relief, menstrual comfort, and heavy-cycle discomfort.
- 04 • **Burdock Root:** Detoxifying and anti-inflammatory herb that supports liver clearance, reduces bloating/fluid retention, and helps control inflammation.
- 05 • **Licorice Root:** Supports adrenal response and estrogen metabolism, improving cycle comfort and helping with bloating and hormonal balance.
- 06 • **Goldenseal + Echinacea:** Immune- and mucosal-support herbs that help reduce inflammation and provide supportive care for uterine and pelvic health.

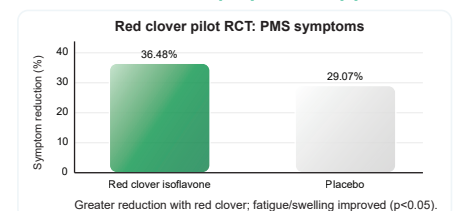

Chasteberry/Vitex: PMS & hormonal symptoms

Randomized double-blind placebo-controlled study: Vitex reduced PMSD score from 29.38 to 4.28 vs placebo 28.76 to 11.79 after 3 cycles; negative affect and water-retention scores improved ($p < 0.05$).
Ref: Ma L et al. *Gynecol Endocrinol*. 2010;26(8):612-616.
doi:10.3109/09513591003632126.

Red Clover: PMS symptom support

Pilot randomized double-blind placebo-controlled trial: red clover isoflavone group showed 36.48% PMS symptom reduction vs 29.07% with placebo; fatigue and swelling improved ($p < 0.05$).
Ref: Taher S et al. *Maturitas*. 2009;63:S114-S115.

Breast-Well

Indications

- Women with cyclical breast discomfort, tenderness, swelling, heaviness or sensitivity linked to monthly hormonal fluctuation.
- Women with benign fibrocystic breast changes/lumpiness seeking daily nutritional support for breast comfort and tissue balance.
- Women preferring a non-hormonal supplement-based routine for hormone-balance and healthy breast-tissue support.

Product Benefits

- Reduces breast tenderness.
- Supports estrogen metabolism balance.
- Provides antioxidant breast tissue protection.
- Lowers inflammation in breast tissue.

Recommended Daily Dose

- 2 capsules/day, preferably after meals or as directed by a healthcare provider.
- Bottle count: 60 capsules

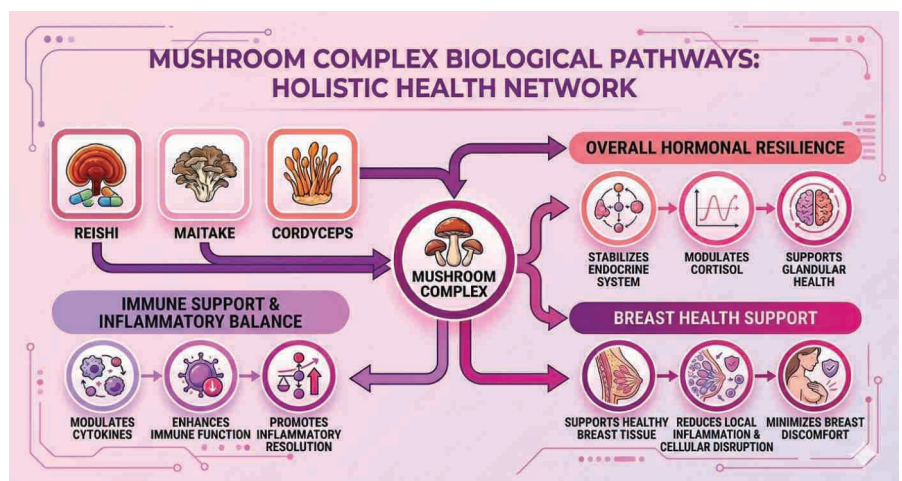

Recommended Duration

- Use consistently for optimum benefit; evaluate breast comfort across monthly cycles.

Major Active Ingredients - Mechanism & Benefit

- 01 Diindolylmethane (DIM):** Supports healthier estrogen metabolism (2-hydroxylation balance), helping reduce estrogen-driven breast sensitivity and cyclical discomfort.
- 02 Vitamin E + Vitamin B6:** Vitamin E protects breast cell membranes from oxidative stress, while B6 supports hormone-related pathways, together improving cyclic breast tenderness and sensitivity.
- 03 Watercress Extract:** Provides glucosinolate-derived compounds that support detox and antioxidant pathways, reinforcing estrogen metabolism and DIM activity.
- 04 Milk Thistle + Dandelion:** Milk thistle supports liver antioxidant protection, while dandelion aids fluid balance and clearance, helping reduce breast fullness and heaviness.
- 05 Burdock + Brownwort:** Provide polyphenol-based antioxidant and anti-inflammatory support, helping improve overall breast tissue comfort and sensitivity.

SUPPLEMENT FACTS

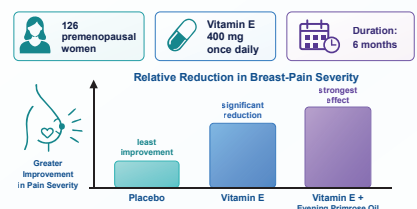

Serving Size: 2 Capsules
Servings Per Container: 30

Amount Per Serving		% Daily Value
Dandelion Leaf 4:1 Extract	50 mg	**
Burdock Root	150 mg	**
Milk Thistle Seed	70 mg	**

WOMEN'S
HEALTH

PREMIUM QUALITY
PHYSICIAN FORMULATED

Uticyst

Indications

- Women with recurrent UTIs (≥ 2 symptomatic episodes in 6 months or ≥ 3 in 12 months).
- Postmenopausal women prone to UTIs due to estrogen-related vaginal flora changes.
- Women after antibiotic treatment who need support for gut-vaginal microbiota restoration.
- Individuals seeking a daily, natural, non-antibiotic urinary tract support strategy.

Product Benefits

- Reduces UTI recurrence risk.
- Supports urinary tract health naturally.
- Restores gut and vaginal flora.
- Promotes healthy microbial balance.

Recommended Daily Dose

- 2 caplets daily with water; best between meals or with a light meal. If stomach-sensitive, take with food.
- Bottle count: 60 caplets

Spacing: separate from antibiotics by at least 2 hours; separate from iron or thyroid medications by 2-4 hours.

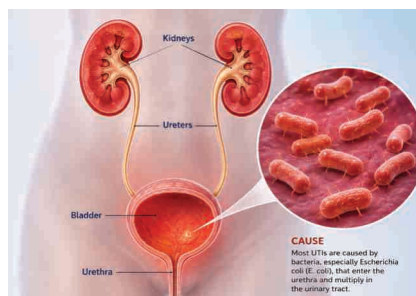

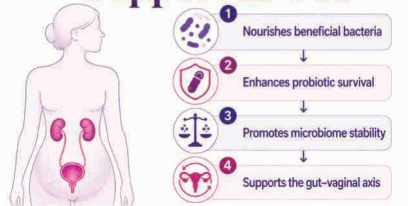

Recommended Duration

- Use consistently as daily maintenance support.

Major Active Ingredients – Mechanism & Benefit

- 01 • D-Mannose:** Blocks E. coli adhesion to urinary tract walls by binding bacterial fimbriae, helping flush bacteria naturally with urine while supporting non-antibiotic UTI defense.
- 02 • Cranberry:** Uses PACs to prevent E. coli attachment to urinary epithelium, helping reduce UTI recurrence risk while supporting urinary tract comfort and protection.
- 03 • Probiotic Blend:** Restores and maintains healthy gut and vaginal microbiota with Lactobacillus and Bifidobacterium strains, supporting acidic pH, pathogen competition, and mucosal immune defense.
- 04 • Inulin/FOS:** Acts as a prebiotic fiber that nourishes beneficial bacteria, enhancing probiotic survival, improving microbiome stability, and strengthening the gut-vaginal axis.

Prebiotic + Probiotic Support in UTI

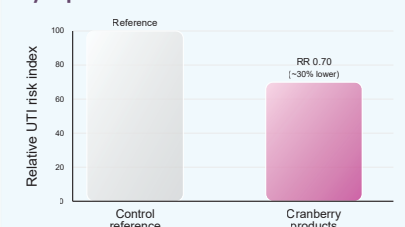

SUPPLEMENT FACTS

Serving Size: 2 Caplets
Servings Per Container: 30

Amount Per Serving	Daily Value %*
Inulin (FOS) Fiber 90% (from Jerusalem Artichoke Root)	150 mg **
Cranberry (Vaccinium macrocarpon) (Fruit) Powder	400 mg **
D-Mannose	1000 mg **
Probiotic Blend	3 Billion CFU **
Lactobacillus plantarum, Lactobacillus paracasei, Lactobacillus acidophilus, Lactobacillus casei, Lactobacillus gasseri, Bifidobacterium lactis.	

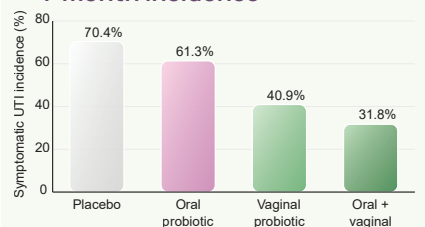

* Daily Value is based on a 2000 calorie diet | ** Daily Value not established

Cranberry evidence (2023): symptomatic culture-verified UTI

The 2023 Cochrane update reported reduced symptomatic, culture-verified UTIs with cranberry products overall (RR 0.70; 95% CI 0.58–0.84), equivalent to ~30% relative risk reduction. Ref: Williams G et al. Cochrane Database Syst Rev. 2023;10:CD001321. doi:10.1002/14651858.CD001321.pub7.

Probiotic RCT (2024): 4-month incidence

Among 174 women, symptomatic UTI incidence at 4 months was lowest with probiotic combination (31.8%) and vaginal probiotic (40.9%) vs placebo (70.4%).

Ref: Gupta V et al. Clin Infect Dis. 2024;78(5):1154–1161. doi:10.1093/cid/ciad766.

SUPREME UNIVERSAL FERTILITY

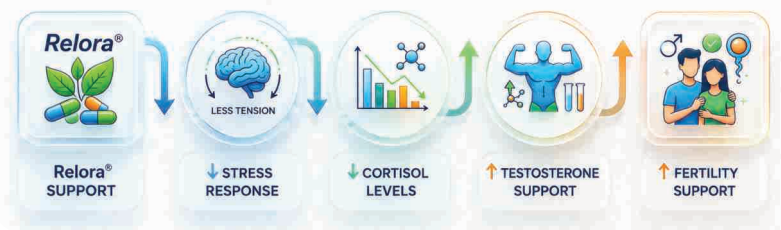

MFS PLUS

Major Key Active Ingredients

01 • Relora:

BIOLOGICAL PATHWAY: RELORA® SUPPORT AND ITS POTENTIAL EFFECTS

02 • Co-Enzyme Q10: Supports mitochondrial energy production and protects sperm membranes from oxidative stress.

03 • Glutathione: Major antioxidant that protects sperm cells from oxidative damage, supporting sperm quality, motility, and overall male fertility.

04 • Acetyl-L-Carnitine: Helps fuel sperm movement and supports forward progression.

05 • Lycopene, Vitamins C, & Vitamins E: Key antioxidants that help protect sperm membranes and DNA.

06 • Zinc, Selenium, Folate, & vitamin B12: Support spermatogenesis, antioxidant enzymes and DNA integrity.

Indications

- Men with abnormal semen analysis and normal hormonal assessment.
- OAT cases: low concentration, weak motility and abnormal morphology.
- Idiopathic male infertility, especially when DFI or oxidative stress is a concern.

Product Benefits

- Supports sperm motility.
- Enhances sperm count.
- Restores sperm morphology.
- Reduces elevated sperm DFI.

Recommended Daily Dose

- 4 capsules/day in divided doses: 2 in the morning and 2 in the evening, preferably after meals.
- Bottle count: 60-120 capsules.

Recommended Duration

- 3 months, aligned with the sperm development cycle.

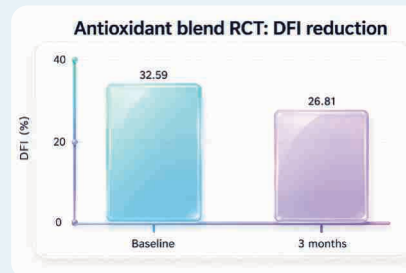

SUPPLEMENT FACTS

Antioxidant blend & sperm DFI

In a randomized double-blind placebo-controlled trial, men with baseline DFI >20% had DFI reduced from 32.59% to 26.81% after 3 months; the trial also reported improved motility and morphology with antioxidant blend therapy. Ref: Patki A et al. Transl Clin Pharmacol. 2023.

CoQ10 + L-carnitine combination in infertility

A placebo-controlled double-blind randomized trial in idiopathic OAT compared CoQ10, L-carnitine, their combination and placebo; antioxidant therapy improved semen parameters, with combination therapy reported as superior to monotherapy. Ref: Higazy A et al. Arab J Urol. 2025

PREMIUM QUALITY
PHYSICIAN FORMULATED

Motility Max

Major Key Active Ingredients

- 01 • Mucuna pruriens (40% L-DOPA):** Adaptogenic herb that supports hormonal balance, reduces stress effects on fertility, and helps improve sperm production, motility, and semen quality by combating ROS, restoring mitochondrial membrane potential, and regulating apoptosis.
- 02 • L-Carnitine:** Supports mitochondrial energy production needed for sperm maturation, movement, and vitality.
- 03 • N-Acetyl Cysteine (NAC):** Powerful antioxidant that boosts glutathione, reduces oxidative stress and semen viscosity, helping sperm move more freely.
- 04 • L-Arginine:** Supports nitric oxide production, improving blood flow, sperm production, and sperm motility.
- 05 • Co-Enzyme Q10:** Supports mitochondrial energy and protects sperm membranes, improving sperm movement and function.
- 06 • Quercetin:** Antioxidant flavonoid that helps protect sperm cells and mitochondria from oxidative damage.

Indications

- Isolated asthenozoospermia: low total or progressive motility.
- Severe motility weakness needing focused mitochondrial and antioxidant support.
- Post-varicocele surgery support where oxidative stress and semen recovery are key concerns.

Product Benefits

- Supports total and progressive motility.
- Improves sperm energy and movement.
- Protects sperm from oxidative stress.

Recommended Daily Dose

- 2 capsules/day, preferably after meals.
- Bottle count: 60 capsules

Recommended Duration

- 3 months, consistent with the spermatogenesis cycle.

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

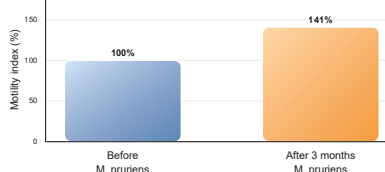

Amount Per Serving		% Daily Value
Vitamin A (Acetate)	600 mcg RAE	67%
Vitamin C (as Ascorbic Acid)	5 mg	5.5%
Vitamin B6 (50% Pyridoxal-5-Phosphate, 50% Pyridoxine HCL)	25 mg	1471%
Vitamin B12 (as Cyanocobalamin)	500mcg	20833%
Zinc (as Zinc Oxide)	5 mg	45%
Selenium (as Amino Acid Chelate)	15 mcg	27%
Proprietary Blend	1440 mg	**
L-Carnitine (L-Carnitine L-Tartrate)	*	
L-Arginine HCl	*	
NAC (N-Acetyl Cysteine)	*	
Quercetin	*	
Mucuna Pruriens (Seed) (40% L-Dopa)	*	
Co-Enzyme Q10	*	

* Proprietary Blend | **Daily Value not established

Mucuna pruriens Supports Sperm Motility

Asthenozoospermic subgroup: sperm motility +41%

Indexed to pre-treatment = 100; clinical study reported 41% motility improvement (P<0.05).

Mucuna pruriens seed powder for 3 months significantly improved sperm motility in the asthenozoospermic subgroup (+41%, P<0.05), supporting its role in motility-focused male infertility support.
Ref: Shukla KK et al. Fertil Steril. 2009

L-Carnitine and NAC Improve Key Semen Parameters

2025 meta-analysis of RCTs: LC & NAC

	Sperm concentration	Sperm motility	Normal morphology	Ejaculation volume
L-carnitine	✓	✓	✓	—
NAC	✓	✓	✓	✓

2025 meta-analysis of 7 randomized controlled trials found L-carnitine improved sperm concentration, motility and normal morphology; NAC improved these parameters and ejaculation volume.

PenaMax

Major Key Active Ingredients

Indications

- Men seeking natural daily support for sexual performance, stamina and desire.
- Men with mild-to-moderate erectile dysfunction or reduced vascular responsiveness.
- Men who cannot tolerate and/or don't prefer conventional medicine options.
- Men with chronic ED who need chronic management approach.

Product Benefits

- Supports erectile function.
- Improves stamina and desire.
- Supports daily performance.

Recommended Daily Dose

- 2 capsules/day, taken together or in divided doses, preferably after meals.
- Bottle count: 60 capsules = 1 month supply.

Recommended Duration

- Use consistently for optimum benefit; improvements may start after 2-3 weeks.

- 01 • L-Arginine:** Helps produce nitric oxide (NO), which relaxes blood vessels, improves penile blood flow, and supports stronger erections and better rigidity in mild-to-moderate erectile dysfunction.

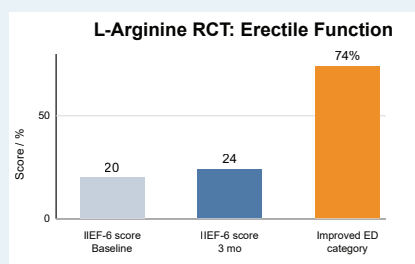

- 02 • Acetyl-L-Carnitine:** Supports energy production and nerve function, helping reduce fatigue-related sexual decline while improving libido, mood, and erectile function, especially in aging men.

- 03 • Propionyl-L-Carnitine HCl:** Supports blood circulation and cellular energy, helping improve penile blood flow and complement nitric oxide and erectile-support pathways.

- 04 • Butea Superba:** Traditional Thai herb used for male vitality that supports erection quality, sexual confidence, stamina, and overall sexual performance.

- 05 • Ginkgo Biloba:** Improves circulation and antioxidant activity, supporting genital blood flow, libido, energy, and helping with reduced arousal or antidepressant-related sexual dysfunction.

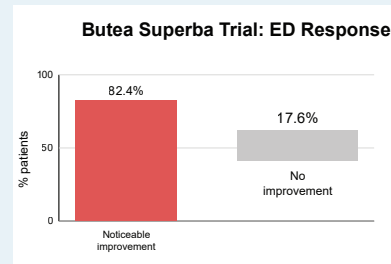

L-arginine in vasculogenic erectile dysfunction.

In a multicenter double-blind randomized placebo-controlled clinical trial, L-arginine for 3 months significantly increased IIEF-6 score and peak systolic velocity; 74% improved ED category

Ref: Journal of Endocrinological Investigation, 2022

Butea superba in erectile dysfunction.

In a 3-month randomized double-blind clinical trial in men with ED, Butea superba significantly upgraded 4/5 IIEF-5 evaluations and 82.4% showed noticeable improvement without apparent blood-chemistry changes.

Ref: Cherdshewasart W, Nimsakul N. Asian J Androl. 2003

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

Q-Well10 200mg

Uses in infertility

- Men with idiopathic infertility, and OAT cases.
- Women seeking antioxidant and mitochondrial support before conception or IVF/ICSI, especially in diminished ovarian reserve (DOR).

Product Benefits

- Provides antioxidant protection against oxidative stress affecting fertility cells in both men & women.
- Helps support cellular energy production in sperm and oocytes.
- Supports sperm concentration, motility, semen quality and reproductive outcomes as part of fertility care in men.

Recommended Daily Dose

- 1-2 softgels/ day, preferably after a meal containing fat, or as directed by a healthcare professional.
- Bottle count: 60 softgels.

Recommended Duration

- Use for at least 3 months for fertility support; male fertility studies suggest longer use (up to 6 months) may provide more optimal semen outcomes.

SUPPLEMENT FACTS

Serving Size: 1 Softgel
Servings Per Container: 60

Amount Per Serving	% Daily Value
Total Fats	1.25 g
Calories	12.5
Vitamin E (as d-Alpha Tocopherol)	3.35 mg 22%
Co-Enzyme Q10	200 mg **

* Percent Daily Values are based on 2,000 calorie diet.
**Daily value not established.

01

02

Mitochondrial Energy: CoQ10 is essential for electron transport and ATP production, supporting high-energy reproductive cells such as sperm and oocytes.

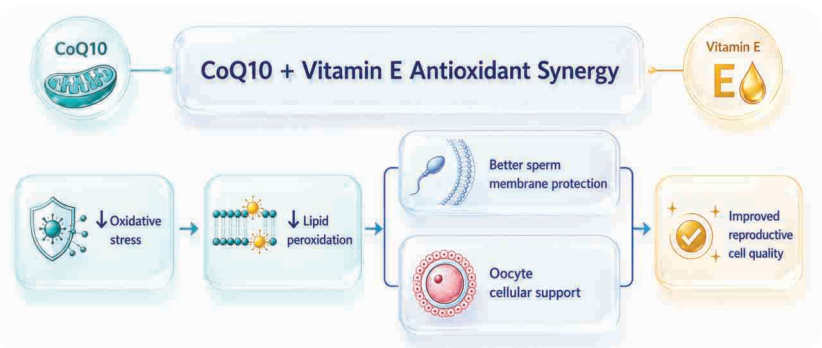

03

Male Fertility: In seminal fluid, CoQ10 is linked with sperm concentration and motility; supplementation has shown improvements in semen quality in randomized trials.

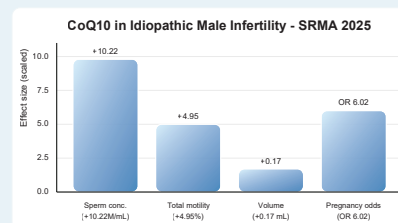

04

Female Fertility: CoQ10 pretreatment may improve ovarian response, oocyte retrieval and IVF/ICSI outcomes in women with diminished ovarian reserve.

05

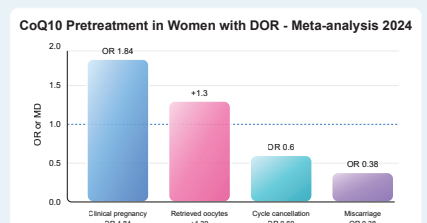

Effect of CoQ10 on Male Fertility Outcomes

A 2025 systematic review and meta-analysis of randomized trials in idiopathic male infertility found significant improvements in sperm concentration, semen volume, total motility, seminal CoQ10 levels and clinical pregnancy odds.

Ref: Bakri S et al. World J Mens Health. 2025.

Effect of CoQ10 on Female IVF/ICSI Outcomes

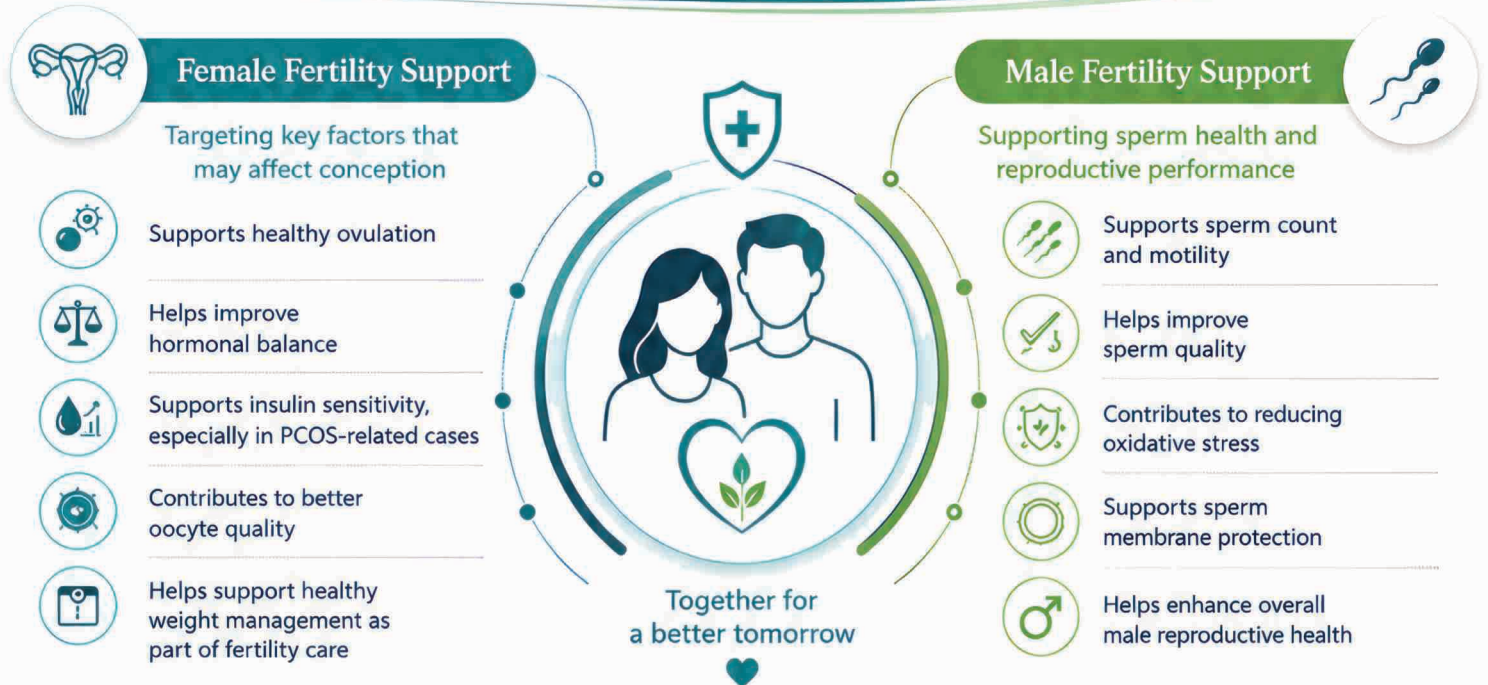

A 2024 systematic review and meta-analysis of six randomized trials among women with diminished ovarian reserve found higher clinical pregnancy rate, more retrieved oocytes, and lower cycle cancellation and miscarriage rates.

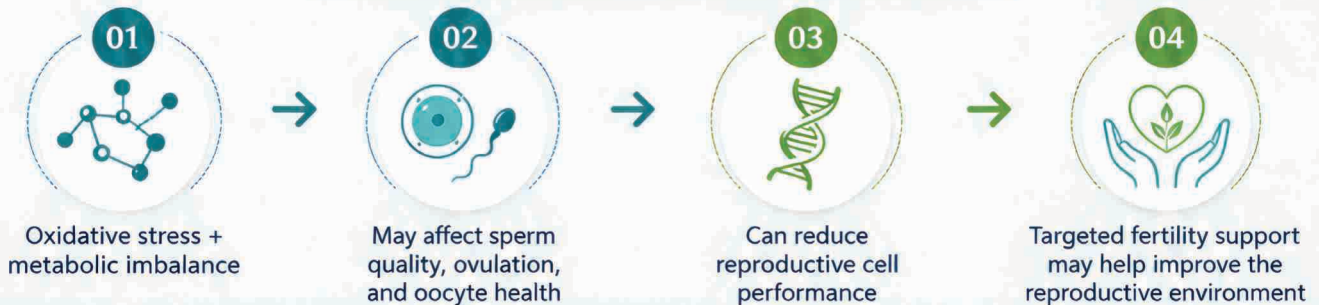

Ref: Lin G et al. Ann Med. 2024.

Comprehensive Fertility Support for Couples

Supporting both male and female reproductive health through a complete fertility care approach

Why Antioxidant & Metabolic Support Matter

A Couple-Based Fertility Approach

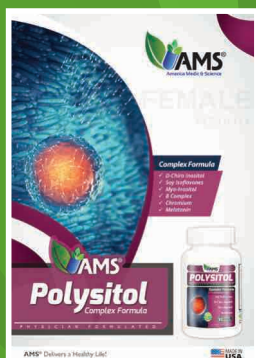

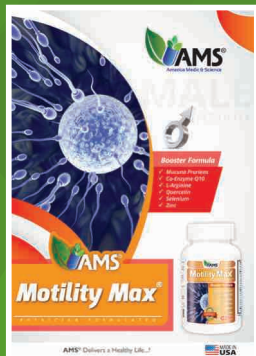

Fertility care should consider both partners. A complete approach includes medical assessment, lifestyle management, weight control, antioxidant support, and doctor-recommended supplementation.
